Webinar 19.11.2026

Instructions for participation

1. If you cannot hear audio after joining the meeting

1. Open the menu next to the microphone icon by clicking the small arrow beside it and try changing to another speaker that you have available. You can also select **Test Speaker and Microphone**. Follow the on-screen instructions to test your audio settings.
2. You can also leave the meeting by clicking **Leave** and then rejoin. This often resolves audio issues.
3. Check also that no other application is using your computer audio devices and that your audio is not muted in your system settings.

2. The webinar will be recorded

The webinar recording will be available on the event website for two weeks after the webinar. There you can also download the slides of the webinar. The chat will not be included in the recording.

3. Do you have questions?

You can post questions in the chat during the webinar. We will answer them after the presentations. Please note that chat messages are visible to all webinar participants. During the final part of the webinar, you will have the opportunity to ask questions verbally using your microphone.

How to apply for Master’s Degrees taught in English

admissions@jamk.fi

jamk

Master’s degrees in Universities of Applied Sciences

- A Master's degree from a University of Applied Sciences is an EQF level 7 (European qualifications framework) higher education degree equivalent to university’s master's degrees.
- UAS Master’s degrees grant the same eligibility for public offices as a university master's degree.
- Studies focus on practical, professional development
- The studies are designed to be completed alongside work and are conducted as online or blended learning.
- The studies also offer many options for internationalisation.
- Studies can also be completed at other higher educational institutions in Finland.

Read more about the content, curricula and conduction methods of the degrees : jamk.fi/masters-degrees

jamk

Master’s degree programmes at Jamk UAS

Apply 7-21 January 2027 by 3.00 p.m.!

Technology | 60 ECTS, 1-2 years

- Master of Engineering, Cyber Security
  - ✓ *Strategic planning, development, and monitoring of cybersecurity*
  - ✓ *System protection, vulnerability detection, and cyber threat preparedness*
- Master of Engineering, Full Stack Software Development
  - ✓ *Understand the entire lifecycle of modern software development*
  - ✓ *Design and implementation of secure software solutions in both back-end and front-end development*
- Master of Engineering, Artificial Intelligence and Data Analytics
  - ✓ *Data analytics, machine learning, computational algorithms, deep learning, data ethics, and database and cloud service technologies*
  - ✓ *Design, development, and implementation of data analytics and artificial intelligence in various projects*
- Master of Engineering, Professional Project Management
  - ✓ *Competence in various areas of project management*
  - ✓ *Project management methods and tools*

First joint application to higher education, spring 2027

Apply 7-21 January 2027 by 3.00 p.m.!

- Application for degree programmes offered in English.
- You can access the application form during the application period on Studyinfo.fi.
- You can apply for up to six degree programmes using the same application form.
- In the first joint application of the spring, it is not necessary to place the degree programmes in order of preference on the application form.
- You can make changes to your application during the application period by using the link in the confirmation email.
- One study place rule: You can be accepted up to six different degree programmes, but you can confirm only one study place in education that begins in the same academic term.
- One study right rule: In addition, all previous study programme admissions for degree studies leading to bachelor's or master's level degrees in Finland will be cancelled automatically.
- Application fee of 100 euros:
  - ✓ The application fee is collected for **applicants from countries outside EU/EEA** seeking education leading to a degree in higher education.
  - ✓ There is no application fee for Finnish or EU citizens or those who are exempted from paying tuition fee.
  - ✓ The Finnish National Agency of Education will collect the application fee in connection with filling in the Studyinfo application form.

Application form and further information: studyinfo.fi

jamk

Eligibility requirements for Master’s degrees

- The minimum eligibility criteria for the Master’s degrees are:
  - ✓ a relevant Bachelor’s degree (or other equivalent degree) and
  - ✓ at least two years of relevant work experience gained after the Bachelor’s degree.
- The relevant fields of Bachelor's degree and work experience are degree programme-specific and detailed in specific eligibility criteria.
- Example: You have completed a bachelor’s degree in engineering. Your degree is relevant for our master’s degrees in engineering.
- There are no requirements for the academic success of the Bachelor’s degree.
- English language proficiency certificate (only in MBA International Business Management programme). See accepted tests and exceptions from degree programme-specific admission criteria.

Degree-programme specific degree and work experience requirements:
jamk.fi/en/apply-to-jamk/how-to-apply/how-to-apply-for-masters-degrees

Entry requirements for Master’s degrees

Work experience

- The required work experience is degree programme-specific. See detailed requirements from degree programme-specific admission criteria.
- Example: You are applying for master’s degrees in engineering. Your work experience must be from the field of technology.
- The work experience must be gained after completing the bachelor's degree. The work experience can be counted in **starting from the next day of the graduation date of the bachelor’s degree.**
- The work experience does not have to be gained when submitting the application form, it is possible to count in work experience in joint application of spring 2027 until **31 July 2027.**
- The work experience must be demonstrated with work certificates.

Degree-programme specific degree and work experience requirements:
jamk.fi/en/apply-to-jamk/how-to-apply/how-to-apply-for-masters-degrees

Entrance exams for Master’s degrees

- Student selection for Jamk’s Master’s degrees is based on entrance exams (and possible pre-assignments), or interviews.
- The entrance exams are conducted online.
- All eligible applicants are invited to entrance exams.
- Invitations to the entrance exams are sent in the beginning of March by email.
- Entrance exams are arranged during **March-April.**
- The applicant must successfully strongly identify themselves as a part of the student selection process.
- Check the specific admission criteria and information on entrance exams for each study programme you wish to apply for.

Admission criteria, pre-assignments and information on entrance exams:
jamk.fi/en/apply-to-jamk/how-to-apply/how-to-apply-for-masters-degrees

Tuition fees and scholarships

- The tuition fee for Jamk's Master's Degree programmes conducted in English is 12 000 € per academic year.
- There are no tuition fees for Finnish or other EU/EEA-citizens.
- Certain types of residence permits exempts from paying the tuition fee.
- A scholarship for tuition fee paying Master's Degree students can be granted if the student graduates in the degree programme's recommended period of study. The scholarship is 4000 €.
- The recommended period of study is
  - ✓ 2 years for 60 ECTS credits degree programmes
  - ✓ 3 years for 90 ECTS credits degree programmes
- The final deadline for paying the tuition fee is on **13 July 2027** for application period of spring 2027.

Open University Route, Master’s level

- Jamk's Open University Route application is for applicants who have completed Open Studies in a Finnish University or UAS and want to apply as a degree student.
- Eligibility requirements for Open University Route application:
  - relevant Bachelor’s degree and
  - at least 24 months of relevant work experience and
  - 20 or 30 ECTS credits of suitable Master’s degree studies in Open University or Open UAS that can be recognized as part of the degree programme
- You can start Open Studies even without fulfilling the work experience requirement yet.
- The work experience needs to be gained if you apply for a degree later.
- All eligible applicants (suitable degree, work experience, required open studies) who apply through Master's Level Open University Route are accepted to degree studies at Jamk.
- No entrance examination is needed for admission!
- Applications in **May** and in **November**, studyinfo.fi.

- Chemistry
- Mathematics
- Statistics and Data Science
- Clinical Cell Biology (In Finnish only)

Get to know the doctoral programmes

All doctoral programmes can be completed in English

Selecting a doctoral programme and a specialisation option

- **Educational background**
  - You are eligible to apply if you have a relevant master's degree awarded by a university of applied sciences.
  - Admission criteria include applicant's basic knowledge of an applicable discipline
- **Research topic**
  - Admission criteria include the availability of expert supervision and the sufficiency of related resources
  - Before submitting their application, applicants must arrange supervision for their dissertation.
  - If you have not yet contacted potential supervisors, familiarise yourself with the research conducted at JYU via the university's website.
    - Which faculty or department conducts research in your chosen field? Who is conducting the research?
    - Contact researchers in the field, introduce yourself, and present your preliminary idea for your dissertation research. Ask them if they would be willing to supervise your dissertation.
    - Once you have contacted a potential supervisor, they will help you to refine your research topic and draft a research plan. If necessary, they can also help you find other potential supervisors and select a doctoral programme and specialisation option.

Dissertation supervision

Doctoral degree titles

- **Doctoral Programme in Humanities and Social Sciences**
  - Social Sciences and Philosophy: Doctor of Social Sciences (DSocSc) or Doctor of Philosophy (PhD)
  - Other specialisations: Doctor of Philosophy (PhD)
- **Doctoral Programme in Information Technology**
  - Information Systems Science: Doctor of Philosophy (PhD) or Doctor of Science (Economics and Business Administration)
  - Computer Science and Engineering: Doctor of Philosophy (PhD) or Doctor of Science (Technology)
  - Other specialisations: Doctor of Philosophy (PhD)
- **Doctoral Programme in Business, Economics and Finance**
  - Both specialisations: Doctor of Science (Economics and Business Administration)

Help is available when choosing a target degree!

- **Doctoral Programme in Education and Psychology**
  - Educational Sciences: Doctor of Philosophy (Education) (PhD (Educ.) or Doctor of Philosophy (PhD)
  - Cognitive Neuroscience: Doctor of Philosophy (PhD)
  - Psychology: Doctor of Philosophy (Psychology) (PhD (Psych.)) or Doctor of Philosophy (PhD)
- **Doctoral Programme in Sport and Health Sciences**
  - Sport and Exercise Sciences: Doctor of Sport Sciences (D. sport Sci.) or Doctor of Philosophy (PhD)
  - Health Sciences: Doctor of Health Sciences (D. Health. Sci.) or Doctor of Philosophy (PhD)
- **Doctoral Programme in Mathematics and Science**
  - Statistics and Data Science: Doctor of Philosophy (PhD) or Doctor of Science (Technology) (D.Sc. (Tech))
  - Other specialisations: Doctor of Philosophy (PhD)

Eligibility requirements

- **Master's degree– all Finnish universities**
  - a relevant master's degree awarded by a university, a relevant master's degree awarded by a university of applied sciences or a relevant study programme abroad which in the awarding country gives eligibility for doctoral training
- **Master's thesis – JYU**
  - At least a grade of Good (3/5) or another grade of a similar level for the master's thesis, if the thesis has been evaluated
- **Language proficiency requirements – JYU**
  - Proficiency in Finnish or in English demonstrated in one of the ways specified in the admission guidelines
  - Language proficiency can be demonstrated by a Master's degree awarded by a Finnish university of applied sciences.
- **GMAT or GRE exam– Doctoral Programme in Business, Economics and Finance – JYU**
  - If the Master's degree was awarded outside of an EHEA member state (European Higher Education Area)
  - Does not apply to applicants who have completed a Master's degree awarded by a Finnish university of applied sciences.

Eligibility requirements

General admission criteria

The following general admission criteria are applied in admissions to doctoral education:

- applicant's basic knowledge of the applicable discipline
- applicant's success in studies that provide eligibility to apply for doctoral studies
- research topic's suitability for the research fields of the faculty or department
- the quality and feasibility of the research plan, funding plan and doctoral study plan
- the availability of expert supervision and the sufficiency of related resources
- the applicant's commitment to completing the degree in the target time

Admission criteria

How to apply

- Two application rounds per year in April and in September
- Application form in the Studyinfo.fi portal
- Required attachments
  - Research plan and doctoral study plan
  - Degree certificate and transcript of records
  - The supervisor's commitment to supervising the dissertation
  - A certificate of language proficiency (not required if you have a master's degree awarded by JAMK)
  - Some programmes require a CV and/or a motivation letter
- Admission to the doctoral programme is granted by the faculty

Application guidelines

Application guidelines will be updated before the next application round in April 2027

Spring 2027

- Application round opens on 1 April 2027
- Deadline for applications is 30 April 2027
- Results by 18 June 2027
- Study place must be accepted by 2 July 2027
- Studies start in August 2027

Start preparing your application before the application round opens!

Doctoral studies

- There are no tuition fees for doctoral studies.
- Doctoral programmes are not designed for distance or online learning. All doctoral students are expected to be able to be present on campus at least occasionally.
- Admission to a doctoral programme does not include funding. Funding must be applied separately.
- Funding options:
  - Doctoral Researcher position (salary, employment relationship)
    - You can first apply for a position as a doctoral researcher and then apply for admission to the doctoral programme.
    - Current vacancies at JYU
  - Grant research (scholarship, no employment relationship)
  - Part-time doctoral studies (no funding for full-time doctoral studies)

Doctoral dissertation funding

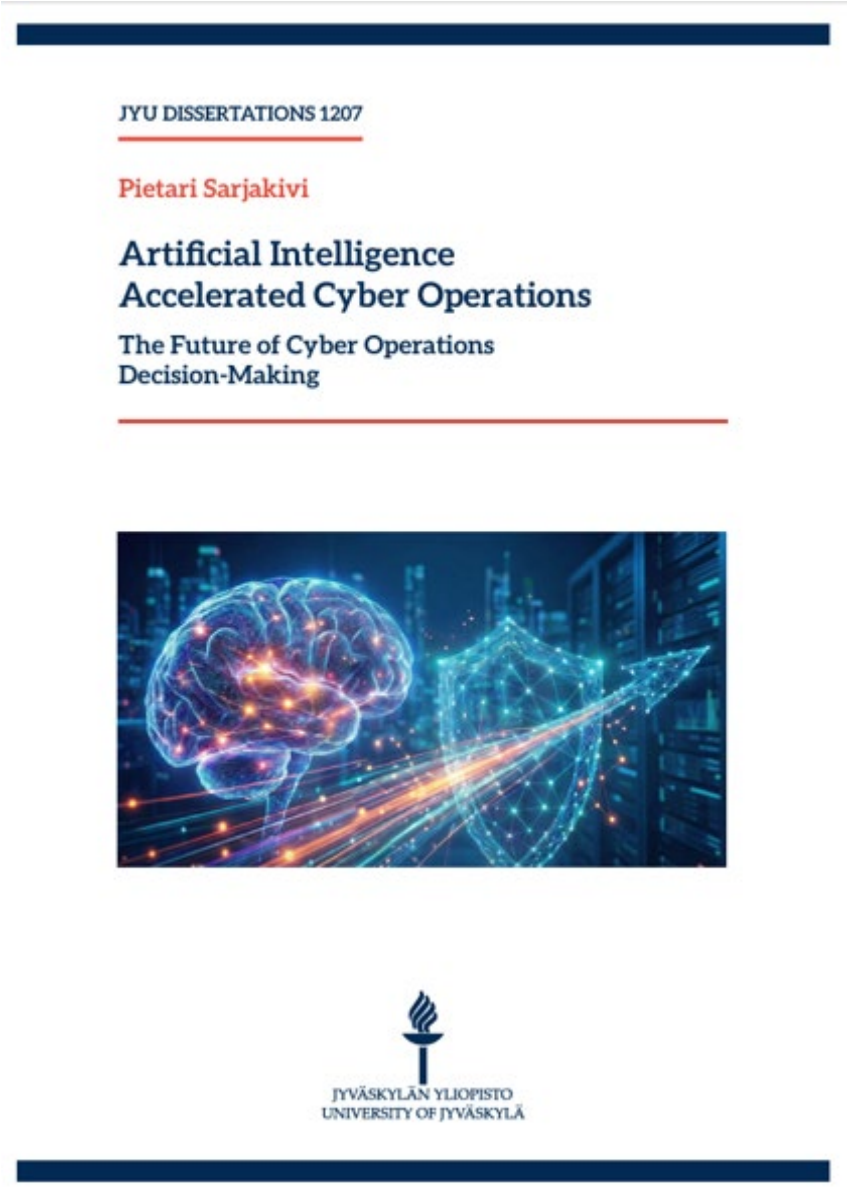

Doctoral degree

- To be awarded a doctorate, the student admitted to doctoral training must
  - complete the required postgraduate studies;
  - demonstrate independent and critical thinking in the field of research; and
  - write a doctoral dissertation and defend it in public.
- At JYU, the volume of doctoral studies varies between 30 and 50 ECTS credits, depending on the doctoral programme and specialisation option.
- Dissertation research is designed to be completed within 3-4 years of full-time work.
- Doctoral studies culminate in a public examination of the dissertation, during which the candidate must publicly defend their research.
