

12th International Forum of Mechanical and Mechatronics Engineering

Meeting the needs of industry through innovative engineering education

Day 1- Wed, 15.11.2017

- Session 1
- Session 2
- Networking with Dinner

Day 2- Thu, 16.11.2017

- Session 3 /Company visit
- Social event

The International Forum of Mechanical and Mechatronic Engineering (IFM2E) aims to bring the educators and representatives of industry together to develop competitiveness in European Mechanical and Mechatronic Engineering education and industry.

The purpose of IFM2E is to review and find solutions for:

- the goals and needs of European mechanical and mechatronic industry
- the state of European mechanical and mechatronic engineering education

Organized by:

Technical University of Cluj-Napoca

Department of Mechatronics and Machine Dynamics
