

WP 2 Leader, Sebastian Duda

Ph.D. (American Literature)

I am research manager at Esslingen University of Applied Sciences. In the past I have been responsible for research and knowledge alliances, grant proposals, international cooperation and entrepreneurship

In RePCi I am leading Work Package 7 DISSEMINATION. The main objective of this WP is to monitor and manage the communication about the project and spread its results.

The project was based on a very professional working atmosphere with highly motivated people. Being part of an international team was therefore highly rewarding. I am confident that there will be more cooperation between the partners in the future, since all partners were very satisfied with the results.
