Project Title: Reshaped Partnerships for Competitiveness and Innovation Potential in Mechanical Engineering

Partner P2: Technical University of Cluj-Napoca

Dissemination Report

On 29 May 2015, Lecturer Ciprian Lapusan participated to the Workshop with the topic “New project opportunities for the companies from PrelMet Transilvania Cluster”. The meeting was organized by PrelMet Cluster at Royal Hall, Cugir.

The workshop aimed to present good practices from already implemented projects of the cluster members and to define new directions concerning the opportunities for R&D projects that the cluster member can develop. During the first part of the Workshop, lecturer Ciprian Lapusan, presented the RePCI project objectives, good practices and project results. The presentation focused on the new collaboration approach between HEIs and companies proposed in RePCI. In the second part of the meeting the discussions focused on development of new collaboration between cluster partners and HEI’s, collaboration that support the R&D activities of both parties and could be the base for new projects proposals in the near and far future.

The Conference gathered together experts from: 2 Universities (Technical University of Cluj-Napoca, 1 December 1981 University of Alba Iulia) and representatives from 8 companies. At the meeting also representatives form P6: Prototip participated and presented the company involvement in RePCI project and the obtained results.
